CERTIFICATE

49. Interlaboratory Comparison Distribution 1 / 2026

The above named laboratory has participated in the first of two distributions of the Quality Control Scheme for Spermatology.

Results:

Concentration:	(1) passed
Morphology:	(1) passed
Motility *	(1) passed

* progressive motility

Legend:

1 = both samples within target window

2 = one sample within target window

3 or 4 = no sample on target (systematic or non-systematic error)

0 = no analysis

For validation of participation, two cycles of the QuaDeGA program must be undertaken within one year.

Accreditation certificates will be issued to participants who obtained a ranking 1 in all parameter.

Methods and details are available online: <https://evaluation.quadega.de>

This trial is based on the guidelines of the German Federal Medical Association (RiliBÄK „Semen-Analysis“).

Expiration Date: 04 / 2027.
